

**Year 3 parent running the New York Marathon
for the UK charity Children with Cancer**

Bella was diagnosed with Leukaemia aged 3, she then relapsed and we spent a long time in hospital battling this illness. Children with Cancer UK charity are one of the only charities that fund cancer treatment in children (they funded Bella's initial treatment that she had)!

They look for better treatment options and treatments with less side effects for children like Bella.

I am running the New York marathon for them on 3rd November.

Bella wouldn't be alive without the treatment that This charity funded, they are amazing and we do a lot of work for them.

My just giving page is <https://www.justgiving.com/fundraising/abbie-stanwix3>

Thank you

Ms Abbie Stanwix
